The Nifty Midcap150 Quality 50 index includes top 50 companies from its parent Nifty Midcap 150 index, selected based on their 'quality' scores. The quality score for each company is determined based on return on equity, financial leverage (except for financial services companies) and earning per share (EPS) growth variability of each stock analysed during the previous 5 financial years. The weight of each stock in the index is based on a combination of stock's quality score and its free float market capitalization.

The index can be used for a variety of purposes such as benchmarking, creation of index funds, ETFs and structured products.

Index Variant: Nifty Midcap150 Quality 50 Total Returns Index.
