

OCTOBER 2026

Nifty Passive Insight

Monthly updates on ETFs
and Index Funds

Overview

Assets under management (AUM) of the passive funds industry plunged in September 2026 to Rs.14.70 lakh crore, its lowest level in FY27. While the asset value shrank month-on-month (MoM) by 4.6% due to mark-to-market losses across asset classes, it remained meaningfully higher than the year-ago level of Rs.12.65 lakh crore. Net inflows remained resilient, at Rs.11,887 crore, despite a significant contraction in broad market indices. Underscoring a structural shift in investor psychology. Investors are increasingly viewing downturns as strategic entry points rather than a signal for exit. Investor participation remained strong with folios rising to 5.60 crore in September from 5.55 crore in the previous month (+0.9% MoM) and 4.45 crore a year ago (+26% YoY). The industry's product landscape also continued to expand, with 8 new passive schemes launched during the month, taking the total scheme count to 735.

ETFs continue to dominate the passive landscape with assets of Rs.11.50 lakh crore as of September 2026. These funds attracted Rs.15,501 crore in net inflows during the month, offsetting weakness across Index Funds that registered net outflows of Rs.3,614 crore, led by large net redemptions of Rs.6,258 crore from Debt Index Funds. The negative flow trend reflects investor rotation out of fixed-income strategies rather than a broad-based withdrawal from index-based investing.

Equity remained the primary destination for capital, attracting Rs.12,609 crore in September 2026. Despite healthy inflows, equity-oriented passive AUM declined to Rs.10.28 lakh crore from Rs.10.76 lakh crore in August 2026, as market weakness more than offset fresh inflows. The decline was primarily valuation-led, with the benchmark Nifty 50 falling 6.03% during the month.

Commodity assets moderated to Rs.2.68 lakh crore in September 2026, down 3.15% from August 2026, triggered by weakness in precious metal prices. Despite gold price fall, investor demand remained strong, with the category attracting Rs.6,425 crore of net inflows in September 2026. Within the segment, Gold ETF (+Rs.4,451 crore) contributed nearly 69% of commodity inflows, while Silver ETF (+Rs.1,974 crore) contributed the balance 31%.

Debt was the only major segment where both flows and assets moved lower. AUM of debt-oriented passive funds declined to Rs.1.74 lakh crore during September 2026, accompanied by Rs.7,142 crore of net outflows.

During H1 FY27, India's passive funds industry demonstrated strong resilience, geopolitical uncertainty, market volatility and changing risk sentiment. Despite market led ups and downs, the industry maintained an average AUM of Rs.14.93 lakh crore through April-September 2026, supported by net inflows of Rs.70,085 crore. The period reinforced a clear investor preference for equity and commodity exposures over debt, with net flows of Rs.72,335 crore and Rs.20,921 crore, respectively. Debt funds, on the other hand, suffered net outflows of Rs.23,064 crore. Investor participation strengthened further with folios surpassing 5.60 crore by September, while the passive product universe expanded by 45 schemes to 735, led by 24 new equity scheme launches.

About NSE Indices Limited

NSE Indices Limited (formerly known as India Index Services & Products Ltd. - IISL), a subsidiary of NSE, provides a variety of indices and index related services for the capital markets. The company focuses on the index as a core product. The company owns and manages a portfolio of indices under the Nifty brand of NSE, including the flagship index, the Nifty 50. Nifty equity indices comprise of broad-based benchmark indices, sectoral indices, strategy indices, thematic indices and customised indices. NSE Indices Limited also maintains fixed income indices based on Government of India securities, corporate bonds, money market instruments and hybrid indices. Many investment products based on Nifty indices have been developed within India and abroad. These include index based derivatives traded on NSE and NSE International Exchange IFSC Limited (NSE IX) and a number of index funds and exchange traded funds. The flagship 'Nifty 50' index is widely tracked and traded as the benchmark for Indian Capital Markets.
