Nifty Passive Insight

Monthly updates on ETFs
and Index Funds

Overview

India's passive fund industry extended its growth momentum in June 2026, with total assets rising 0.3% month-on-month (MoM) to Rs.14.82 lakh crore from Rs.14.77 lakh crore in May 2026. The increase was supported by net inflows of Rs.16,622 crore, marking a sharp turnaround from the marginal outflow of Rs. 402 crore recorded in May. Total folios climbed to 5.52 crore from 5.47 crore, reflecting steady investor participation across passive products. The passive segment added five new schemes in June 2026, taking the total count to 706 from 701 in May 2026, while maintaining a strong 20% year-on-year (YoY) expansion.

Two clear preferences emerged among passive investors not only during the month of June 2026, but through the entire quarter ended June 2026. Firstly, new money decisively flew into ETFs and secondly, investors preferred equity over all other asset classes.

ETFs attracted Rs.16,681 crore in June 2026, while index funds lost Rs.59 crore. Through the entire quarter of April-June 2026, ETFs received Rs.29,131 crore, while index funds could garner only Rs.5,511 crore. Equity-oriented ETFs and Index Funds collectively saw net inflows of Rs.11,423 crore in June 2026. The dominance of equity was observed throughout the June 2026 quarter. Passive equity schemes witnessed Rs.40,800 crore in net inflows during the quarter, while debt funds suffered net outflows of Rs.13,823 crore. Commodities added Rs.7,785 crore of fresh money in during April-June 2026.

Assets in the ETF segment remained virtually unchanged at Rs.11.45 lakh crore while that asset under management of Index Funds increased by 1.4% to Rs.3.37 lakh crore in June 2026 compared to the preceding month. Equity ETFs assets expanded from Rs.7.81 lakh crore to Rs.8.02 lakh crore, a 2.6% MoM increase. Equity Index Funds received Rs.2,847 crore of fresh money, while assets under their management grew from Rs.2.33 lakh crore to Rs 2.40 lakh crore, up 2.7%.

Within the equity asset class, Broad Market ETFs remained the largest category, with assets rising 3.1% MoM to Rs.6.87 lakh crore in June 2026. At the same time, Sectoral ETF assets scaled up 5.7% to Rs.54,380 crore, while Strategy ETF assets increased 1.4% to Rs.13,215 crore. Within Index Funds, Thematic Funds continued to gain traction, with assets rising 7.0% during the month to Rs.11,290 crore.

The quarterly trend was equally noteworthy. During April-June 2026, Thematic Index Fund assets grew 42.4%, Sectoral ETF AUM advanced 14.8%, and Strategy ETFs AUM rose 14.4%, highlighting where investor interest has been building beyond traditional broad-market exposures.

Commodity funds lost their sheen. While these funds did manage to garner Rs.7,785 crore fresh money during April-June 2026, the inflows were sharply lower than in the preceding two quarters, both of which saw inflows exceeding Rs.30,000 crore.

Debt-oriented passive products remained under pressure in June 2026 due to large institutional withdrawals for quarter-end tax payments and liquidity requirements. Passive Debt Funds witnessed net outflows of Rs. 2,369 crore in June 2026 and of Rs.13,823 crore in the entire quarter ended June 2026. Despite this, Passive Debt Fund assets remained broadly stable at Rs.1.88 lakh crore through the month of June 2026, while marking a 6.4% QoQ fall.

About NSE Indices Limited

NSE Indices Limited (formerly known as India Index Services & Products Ltd. - IISL), a subsidiary of NSE, provides a variety of indices and index related services for the capital markets. The company focuses on the index as a core product. The company owns and manages a portfolio of indices under the Nifty brand of NSE, including the flagship index, the Nifty 50. Nifty equity indices comprise of broad-based benchmark indices, sectoral indices, strategy indices, thematic indices and customised indices. NSE Indices Limited also maintains fixed income indices based on Government of India securities, corporate bonds, money market instruments and hybrid indices. Many investment products based on Nifty indices have been developed within India and abroad. These include index based derivatives traded on NSE and NSE International Exchange IFSC Limited (NSE IX) and a number of index funds and exchange traded funds. The flagship 'Nifty 50' index is widely tracked and traded as the benchmark for Indian Capital Markets.
